**REQUEST FOR REPUBLICATION OF APPLICATION**

Sir:

Applicant hereby requests republication of the subject application based on the following.

During the course of prosecution of the subject application, Applicant submitted a supplemental Information Disclosure Statement (IDS) citing his co-pending application 10/854,086. Based on information received from the Office of Publications, it appears that the IDS citation was incorrectly coded at the PTO as a substitute specification and subsequently published as Patent Publication No. US 2005/0081614 A1 as corresponding to the present Application S. N. 10/689,147. It is further understood from the Office of Publications that this error has now been corrected and the correct specification is now reflected in the Office's electronic database.

Although there is substantial similarity between the two applications, they are not duplicative and thus this application has not actually been published.

Respectfully submitted,

DORITY & MANNING,  
ATTORNEYS AT LAW, P.A.
